Grant recipient
Raising \$15 million in private donations

\$10 million in interim funding
Holding conservation easement

THE
CONSERVATION FUND

\$10 million in interim funding

Developing habitat management plan
Will own and manage as WMA and State Park

A scenic view of a coastal wetland. The foreground is dominated by shallow, rippling water with numerous tall, thin reeds growing out of it. A dense line of reeds runs across the middle ground, separating the foreground from a larger body of water. In the background, a flat, grassy area meets the horizon under a bright blue sky filled with scattered white clouds. The overall atmosphere is peaceful and natural.

Thank You
